CAREER PROFILE SUMMARY

I am a Computer Science student with a strong foundation in software development, systems design, and computer security. My expertise spans structured and object-oriented programming, advanced software design, database management, mobile application development, React, Django and artificial intelligence. I am proficient in algorithms, data structures, and system analysis, with hands-on experience in computer networks, database management systems and network design. My background also includes a solid understanding of operating systems, applied mathematics, and the principles of computer organization and security.

With a passion for IT, I am eager to contribute my technical skills to a dynamic organization, solving complex problems and driving innovation in software development and systems engineering.

EDUCATION BACKGROUND

- **Bachelor of Science in Applied Computer Science**, Daystar University, September 2022 to Date
- **Kenya Certificate of Secondary Education-** Chewoyet Boys' High School, Kapenguria (2018- 2022)

PROFESSIONAL COURSES

- CS50's Introduction to Programming with Python
- CS50: Introduction to Computer Science
- Building APIs with Django

KEY SKILLS AND COMPETENCIES ACQUIRED

- **Adaptability:** I am able to quickly learn new technologies and adjust to evolving project requirements.
- **Communication Skills:** I possess strong verbal and written communication skills, enabling me to clearly convey ideas, collaborate effectively with teams, and engage with diverse audiences.
- **Analytical and Problem-Solving Skills:** Able to visualize and solve complicated problems in the best way possible and make accurate and informed decisions.
- **Reporting:** Well versed in all aspects of risk reporting in an appropriate way to the relevant departments, to ensure they are aware of risks relevant to their parts of the business.
- **Teamwork:** Collaborative in team settings, contributing to shared goals while respecting diverse viewpoints.

1

EXPERIENCE

- **Internship**
Jumuisha Software Company limited

TRAININGS

- IoT for Beginners
[Daystar university DITA]
Completed a foundational course on IoT, learning about hardware, software, and network integration in IoT ecosystems.
- Django
Building API with django
- React
Creating websites and web apps and integrating with the back end API
- Docker
Jumuisha Company limited

REFEREES

Joy Kiragu

Developer ,Jumuisha software company limited
P. O. Box 7,145, Nairobi
